

**Chase the monkey**

**Chase the monkey**

Players start in both corners with pucks. On the whistle first player will start out from the corner, skate around the cone and shoot. As soon as the player shoots the next player in the opposite corner will start around the cone with the first player in pursuit. This continues from side to side.

If the player catches the player in front of them he is declared the winner. Coaches should make sure players do not start before the player chasing them shoots.
